- You may have heard about a federal rule that some say will keep people with disabilities from working or living where we want. This is not true!
- People First Wisconsin wants to make sure all people with disabilities in Wisconsin have the opportunity to get a job that matches their skills and interests.
- Please make sure tax dollars that support people with disabilities to be employed help to increase **not** continue to decrease community job opportunities.
- **People with disabilities support the federal rule to open up more jobs in our communities and use Medicaid \$ more efficiently!**
