

Johnathan: My Employment Story

Hi! My name is
Johnathan Coleman.

I am 29 years old.

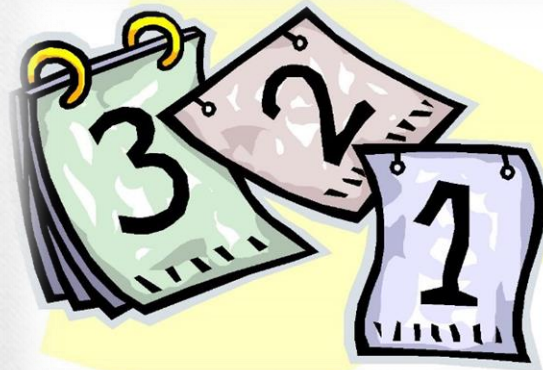

I have been happily employed as a Dietary Aide at
Grand Prairie Nursing Home since November 2013.

I love my job!
When I was in school, this is exactly the
kind of job I thought I'd be doing.

I currently work 20 hours per week. My work shift is from 3:30 – 7:30 p.m., 5 days per week. I work alternating weekends.

I use Southport Specialized Transportation to get to and from work each day.

Coty, the Lead Cook, and other co-workers help me at work; however, I know how to do my job well, so I need little assistance.

In the future, I'd like to get a job working at a hospital as a Nursing Assistant.

I think it is important for people with disabilities to work because we deserve a chance to try different things.

Me with Representative Tod Ohnstad, who shadowed me at my job.

This IS my employment story...
